Bottom: the fancy box with the built-in patterns (edited).

Realises the perfect embroidery finish.

Dream features to make embroidery even more fun and full of creativity!

Every kid loves Disney!

Disney character patterns: only available on Brother sewing machines! It comes with **134 embroidery patterns** of Disney's most beloved characters. Kids will love them!

Introducing the "Thread Trimming Function": Only from Brother!

It used to be such a hassle for embroiderers to trim each one of the excess thread jumps using scissors. Now, you can forget about it! Brother has finally developed a technique that saves you from the hassle. Using this function, **Innov-is 4000D automatically cuts the excess thread jumps**. It's that convenient!

Embroider either large or small pieces of fabric!

Brother gives you **4 different sizes of embroidery frames**. You can decorate from the tiniest collar to the largest bedcover with your favourite patterns.

Design repeated patterns easily

Use the **"Border Function"** to create original stitches by repeating a pattern. Select a pattern and press a button the number of times you want to repeat it. It's that easy!

For the avid creator, Brother offers you more embroidery possibilities!

Try Brother's options and expand your world of embroidery! The embroidery cards will amaze you with their variety.

The optional software **"PE-Design Ver.6"** lets you design your own unique patterns, scan your favourite photos and transform them into embroidery, and so much more giving you unlimited creativity!

A bag with built-in embroidery (repeated using the "Border Function").

"Border Function": create repeated pattern easily.

Enjoy new look of the Disney pattern (built-in).

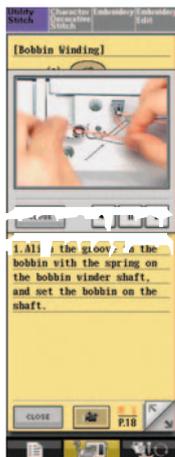

Even more variety for Disney patterns! New Disney quilt pattern (built-in).

Wow all your friends with your new creations!
Little do they know that you have the best sewing adviser.

The Secret of Successful Sewing...

Create your own fashions and amaze your friends, they won't be able to tell that they're handmade. Here's the key to your sewing success (keep it secret from your friends): the LCD panel! It shows you all the information you need in full colour and high resolution. It's like having your own personal sewing adviser. Wonder which stitch to use for your jacket? The LCD panel will give you the answer!

The movie tutorial gives you a clear answer.

The large and easy-to-use LCD panel helps your creation.

A fashionable wool tweed jacket and a blouse with the built-in stitches (see the left page for details).
Be proud of its perfect result!

Innov-is 4000D opens the door to the next stage of sewing.

It's a whole new world of possibilities!

WELCOME!

Even more features to enjoy your sewing

Innov-is 4000D has got the USB port connector for media & PC!

Plug a USB media directly into the USB port connector, and save your best designs to the media: It's your portfolio! Carry your masterpieces to anywhere on your chosen media. It gives you an opportunity to exchange your designs with your friends'. Share the pleasure of creation!

Connect Innov-is 4000D to your PC directly via the USB cable: the upgrading of the sewing machine becomes much easier. Enter www.brother.com, and install the newest upgrade program, directly through the USB cable, to keep it updated for your sewing comfort!

Moreover, you can directly link Innov-is 4000D to your PC to send/save embroidery patterns to the PC, or import designs downloaded from the Internet in a blink of an eye.

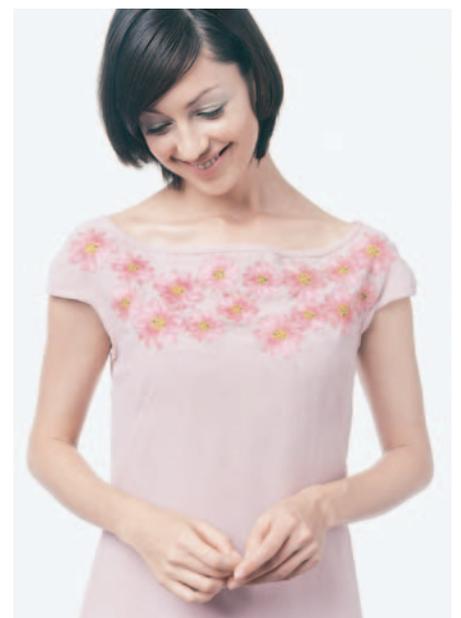

Expand the embroidery possibility with Brother's optional software "PE-Design Ver.6"!

Design your own unique embroidery patterns in a few easy steps. Scan your favourite drawings or photos, or use clip art images to transform into embroidery.

PE-Design Ver.6 provides you incredible variety of stitch variations: Colour gradation, Colour blending, Stamping effect, and so much more! You can also edit designs in many ways.

PE-Design Ver.6 gives you unlimited creativity to fully enjoy your sewing!

Link **Innov-is 4000D** to your PC, and download embroidery designs and upgrade programs on the Internet. Import/Export embroidery patterns to/from your PC. Send patterns from/to USB media. Scan photos of your memories and transform them into embroidery using our optional software "PE-Design". All of these are possible!

The large and easy-to-use LCD panel gives you the freedom to choose your most comfortable position, because it has an amazing angle of visibility.

Be ready to operate in a few seconds!

Unlike a typical computerised sewing machine, it doesn't keep you waiting for long to get ready. Start creating right away!

Who knows the most about your kids?
It's YOU, of course!

T heir Favourite Things

Don't compromise on ready-to-wear clothing designed for anyone. You are the one who can make your little ones feel cosy and adorable. Let the ones most important to you know what it feels like to wear fashion designed especially for them.

An apron dress with adorable built-in cross-stitch patterns (designed by The Vermillion Stitchery).

A dress with built-in patterns.

Experience the finest & easiest embroidery...

Large embroidery in a small amount of time!

With the industry's largest embroidery area of **300 mm x 180 mm**, it helps you create elaborate embroidery without the frustration of rehooping. Plus, with Innov-is 4000D, creating a large embroidery doesn't require much time, because it has the top-level embroidery speed as well. Go ahead; decorate large areas of your fabric with daring and beautiful embroidery.

Create your unique embroidery pattern.

Now, it couldn't be easier to create a piece that is truly one of a kind. You can edit the embroidery patterns using the LCD touch panel: changing their sizes and colours, combining them with other patterns, and so much more!

The presser foot automatically raises and lowers when embroidering!

The presser foot is raised when it comes to changing embroidery threads. When you start embroidering again, the presser foot automatically lowers. Combine this feature with the "Thread Trimming Function", then, just changing thread will make fantastic embroidery.

See a finished image before you start!

The LCD's high quality reproduction shows you a perfect preview image in full-colour.

Everything will come out just as you have imagined!

Sew utility stitches with the embroidery unit installed!

It makes creation even more effortless! You don't have to uninstall the embroidery unit every time to sew utility stitches. It saves you more time to spend on your creation!

Create your thread colour table with the "Custom Thread Table" function!

You can't find the thread colour you want in the colour palette? Don't worry! Add your favourite colours of threads in the custom thread table by entering their thread numbers, so that you can see the perfect colour on the LCD panel. You can select up to 300 thread colours, from 5 major brands, to add in the custom thread table.

Innov-is 4000D comes with 4 embroidery frames including the extra-large that realises the industry's largest embroidery area of 300 mm x 180 mm.

A pillow and a book cover decorated with the built-in patterns (the pattern on the book cover is designed by Josephine Symons).

Cosmetic pouches and a tray with built-in embroideries. You can always get the beautiful result even when embroidering on the slippery shantung.

Table toppers with the matching embroideries from the embroidery card No.31.

Now is the time to create a quilting masterpiece.

only dreamt of are now within your reach!

Y our Dream Quilt

Imagine a space decorated
with a quality quilt...
Its handmade look makes
everyone feel at home.
Its elaborate design makes
the space more stylish.
Now you have
Innov-is 4000D,
why hesitate, start making
one today.

Features to help you achieve your dream

The industry's largest workspace

With the spacious workspace, even a king size bedcover can be easily controllable! The "Flat bed attachment" enables you to place your hands securely on the fabric to guide it. Find out how easy and manageable it can be to handle fabric. Create quilting masterpieces that have never been possible before. The large workspace means that your creativity can be boundless.

Heavy fabric, light fabric, or layers? Go for it!

Don't give up your favourite fabric because of its thickness. It offers you wide range of foot clearances. **Single press of a button lets you select the most appropriate foot clearance from 3 levels.** You have the freedom to choose your favourite material, whatever the thickness!

"MY CUSTOM STITCH"™

No matter what style of quilt you like, you are provided with the variety of stitches you may need. There are hundreds of built-in stitches and, of course, you can create your own stitch directly on the LCD panel by using the "MY CUSTOM STITCH"™ feature. Yes, your work can now be truly and uniquely yours!

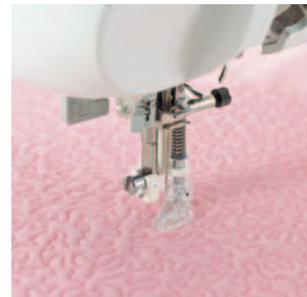

Set your hands free!

Quality quilting demands the utmost attention of your hands on the fabric. Innov-is 4000D automatically sews a reinforcement stitch at the beginning and end of each stitch, trims both upper and lower threads at the end of sewing, and then raises the presser foot with one press of a button. To pivot your fabric or to remove heavy fabrics from the workspace, you can use the knee lifter to raise the presser foot. These features will give your hands more freedom to concentrate on the creation happening on the fabric. Take the hassle out of sewing.

The flat and wide workspace enables you to control a fabric easily and securely.

A modern quilting cushion with variety of handmade-look quilting stitches built-in. The embroidery patterns are from the embroidery card No.61 (the cushion is made by Japanese quilt artist Machiko Miyatani).

The quilting presser foot lets you clearly see the needle position. You can freely sew the quilting lines.
